Govt. Shallamar College Lahore

09/2017 - 04/2019

Lahore, Pakistan

#### Courses

- English
- Mathematics
- Chemistry
- Computer
- Physics

## EDUCATIONAL PROJECTS

### Final Year Project

E-Real Estate Selling Buying and Investment window

My final year project titled E-Real Estate Selling, Buying, and Investment Window involved developing a platform that enables users to advertise their properties and connect with potential buyers, similar to popular real estate websites. Additionally, we offered our own properties for users to directly deal with us, providing a seamless experience for buyers and sellers alike. The platform utilized advanced technologies to make the process of buying, selling, or investing in real estate more efficient and user-friendly.

### Designing an Employee Management System Website using MERN Stack

Semester Project

Designing an Employee Management System Website using MERN Stack Development. Built custom React.js components and integrated them with third-party libraries to create innovative and robust features.

## SKILLS

Adaptability and flexibility	●	●	●	●	○
Teamwork and Collaboration	●	●	●	●	○
Embroidery Designing	●	●	●	○	○
Critical Thinking and Problem Solving	●	●	●	●	○
Professionalism, strong work ethic and Leadership	●	●	●	●	●
Boxing	●	●	●	●	○
Microsoft	●	●	●	●	○

## PROFILE

As a skilled MERN stack developer, I bring a strong technical background in building scalable and robust web applications using modern web technologies. With proficiency in MongoDB, Express JS, React JS, and NodeJS, I have extensive experience in designing, developing, and deploying web applications that meet client requirements and exceed expectations. Alongside my technical expertise, I also possess excellent communication and problem solving skills, which enable me to collaborate effectively with cross functional teams and deliver high-quality projects within tight deadlines
